about us

Superior Brass (est. 1982) is a quality conscious company that has continuously invested in research and development which is the corner stone behind the release of many award winning products that are covered by international patents. This model of business practice has created a corporate culture that has built Superior Brass a formidable reputation as leaders in the Australian builders hardware market.

Superior Brass's corporate ethos is all about taking the initiative to release products which revolve around the customer's requirements and the 'Critical 4':

> *functionality, durability, aesthetic design and affordability.*

A combination of Australian and European designers have focused on creating innovative products that are unique and exclusive to Superior Brass. Quality conscious hardware buyers have enabled Superior Brass to be the first to introduce (1995) the now popular PVD anti-tarnish brass finish range of door furniture. Superior Brass has pioneered many such innovations and has always provided consumers with the choice to take advantage of the latest technologies science has to offer, the choice of a comprehensive range of styles from which to choose in a variety of popular finishes.

With the combination of state of the art Italian CNC machinery and an emphasis on using quality raw materials, the finished product becomes an expression of excellence.

door handle quality attributes

STAINLESS STEEL BALL BEARING
Promotes a smooth friction free operation.
15 Year Mechanical Warranty

4 Hour Fire Rating
Ball Bearing Mechanism is tested in Australia for Australian standards

Outstanding Durability
Long term operational confidence, resilience and toughness.

The invisible hero of durable, reliable, friction free mechanical operation. The Stainless Steel ball bearing promotes smooth mechanical operation, durability and longevity. The Ball Bearing patented mechanism is accompanied by a four hour fire rating (Australian Standard # AS1530.4-1997 and BS476.)

finishes & product numbering

Prefix = Finish

0 - 7

Base Product Number

1 2 3 4

Punch out distance/lock

K/E/A/P/M

The prefix digit represents the finish color

The last four digits represents the base item number

The final letter represents the centre-to-centre lockpunch distance per applicable lock

Antique finishes are hand finished and variations in color may occur.

PB	Polished Brass	
[none]	Authentic and timeless, a traditional classic.	
[4 digit product number]		

MB	Matt Black	
5	Powder coated and baked, the end result is a maintenance free flat black modern finish that provides a bold architectural feature.	

PVD	PVD Brass Finish	
1	The anti-tarnish PVD process will ensure the lustre of the brass remains "as is" without the fear of tarnishing or discolouration.	

Copper	Bronze Copper Finish	
6	Bronzed red copper tones will enhance the authenticity of rustic styling. Available as a matt and polished finish depending on the item/range.	

ATQCPR	Antique Finish/Copper Highlight	
2	A baked and handcrafted process, the finish is highlighted and buffed back to reveal copper edging and highlights.	

ATQBRZ	Antique Bronze	
7	A baked and handcrafted process, the finish is highlighted and buffed back to reveal brown copper and bronze tones.	

CP/PSS	Chrome Plate & Polished Stainless Steel	
3	A hard durable reflective surface mirror finish without standing corrosion resistant qualities.	

EP	English Pewter	
8	Tumble and finished by hand providing a beautiful matt patina. The english pewter finish provides an urban alternative style.	

SC/SSS	Satin Chrome & Satin Stainless Steel	
4	Similar in appearance brushing lines are applied to the chrome finish with a 3M buffer to duplicate the authenticity of natural brushed stainless steel material.	

> Urban Rustic Accents

The recommended lock, cylinder or latch to use for each application appears below the item numbers, next to each image.

Bronze Copper, Antique Bronze and English Pewter finishes are machine tumbled and then finished by hand. Variations in the texture and pronouncement of the finish will occur. This process creates the finishes individuality and character of the item and variations are a normal part of the process to recreate the items authenticity.

Entrance Styling

see page 55 for other designs

Internal Styling

Rustic Black Textured Entrance Handle

Pair Back-to-Back 710mm (515mm/c2c)
53956 Anodised textured black

> Kitchen / Cupboard / Drawer > Pulls & Handles

Superior Brass kitchen and cabinet handles are manufactured using high grade 304 stainless steel with a minimum 7.8% nickel content to make them corrosion resistant and durable for all internal kitchen and cabinet applications. All handles come with 40mm screws with snap off points for simple installation.

- ✔ 304 Stainless Steel
- ✔ Includes 2 x 40mm M4 screws with snap off points

To order Black Finished Handles, substitute the prefix # "4" with prefix # "5".
For Example: 58699 = 120mm > Black Finish

- ✔ Satin finish centre bar with polished finish ends
