ISEO Zero1

ELECTRONIC SOLUTIONS

A NEW RANGE OF ELECTRONIC PRODUCTS BY ISEO GROUP WHICH TOTALLY CHANGES THE WAY TO MANAGE SECURITY AND ACCESS CONTROL SYSTEMS.

Thanks to their high technology features, ISEO Zero1 products may offer comfort and ease of use. They can all be integrated and allow to manage any access in any situation, offering flexibility, smart solutions and security.

ARGO App
THE LATEST EVOLUTION OF ACCESS CONTROL

Libra SMART
NEW AUSTRALIAN OVAL PROFILE CYLINDER

Bluetooth module allowing to interface with smartphones and Argo App. Stand-alone access control system with RFID Multistandard credential reader and signaling LED. Compatible with most of the oval cylinder locks. Ease of installation and retrofittable, with no wiring (battery-operated). Unique and innovative design, several colours and finishes available. Modular system for a simple and rapid customized configuration. Heavy Duty version (IP66).

Aries SMART

ELECTRONIC TRIM SET

Bluetooth module allowing to interface with smartphones and Argo App. Stand-alone access control system. It can be fit on most doors (wood, aluminum, iron). Harmless installation even on existing doors (it requires 2 holes only). RFID Multi-standard credential reader with signaling LED. It works with batteries up to 40.000 operations. IP55 version for outdoor.

Stylos SMART

CREDENTIAL READER

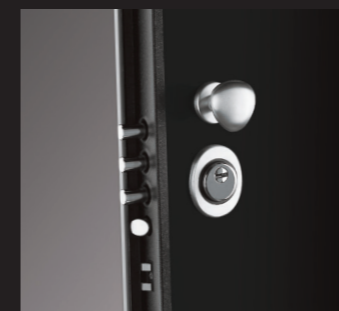

Bluetooth module allowing to interface with smartphones and Argo App. Access control system easy to use and to install. Ideal solution for offices, small companies and residential buildings. RFID Multi-standard credential reader with numerical keyboard and graphic or LED display. Lockbus interface for direct integration with ISEO controllers and actuators. Encrypted data transmission and peripherals safe authentication. IP66 version for outdoor.

X1R SMART

ELECTROMECHANICAL LOCK FOR ARMoured DOORS

Bluetooth module allowing to interface with smartphones and Argo App. Electromechanical opening and closing mechanism. Smart system for access control management. It can be integrated in domestic systems. Accessories can be easily combined in doors design. Lockbus interface for integration in ISEO access control management systems.

F9000 with Mobile validator

MECHATRONIC CYLINDER

Mechanical security and electronic flexibility in a unique product. Tailor-made MK system programming. Mobile validator for key authorizations update. Registered, patented and non-duplicable key profile for a total security. Harmless installation with no cabling. It can be fit with any European profile cylinder locks.

Thesis 2.0

SECURITY SOLENOID LOCK

Standard, Latchbolt, Professional and Mini versions. Normally Closed (fail safe) and Normally Open (fail safe) versions. Door status control programming for security supervision. Lockbus interface for integration with ISEO access control systems. Stand alone, manual and automatic interlock configurations. Low power consumption device with power reserve (booster).

Multiblindo Motion EXIT

ELECTROMECHANICAL AUTOMATIC LOCK WITH PANIC FUNCTION

Perfect combination of security and comfort. It operates with the most advanced access control systems. It can be set with three different options: Total, Light, Free. Acoustic opening and closing signals. Mechanical opening by handle with comfort function. It can be combined with a panic exit device for emergency exits.
